### The Housing Credit is a proven solution to help address the affordable housing crisis.

The Housing Credit is our nation's most successful tool for encouraging private investment in affordable rental housing. It has financed over 3 million apartments nationwide since 1986, providing about 7.2 million low-income families, seniors, veterans, and people with disabilities homes they can afford.

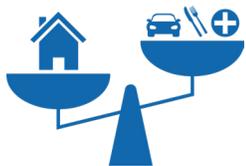

Without the Housing Credit, it would be financially infeasible for the private sector to build affordable homes for the families that need them most.

The ACTION Campaign calls on Congress to:

- **Expand** the Housing Credit to make a meaningful dent in our nation's severe shortage of affordable housing.
- **Strengthen** the Housing Credit by making it more streamlined and flexible.
- **Preserve** multifamily Housing Bonds, which provide critical financing to about 50 percent of Housing Credit developments.

## THE NEED FOR AFFORDABLE HOUSING

Though the Housing Credit has had a tremendous impact in Missouri, much more affordable housing is still needed to meet the growing demand.

In Missouri,  
**165,847 households**

pay more than half of their monthly income on rent, leaving too little for other expenses like health care, transportation and nutritious food.

And in Missouri, a minimum wage worker has to work

**61 hours per week**

in order to afford a modest one-bedroom apartment.

## ADDRESSING OUR NATION'S SEVERE SHORTAGE OF AFFORDABLE HOUSING

A 50 percent increase in Housing Credit allocation authority would allow

**4,798 additional affordable housing units**  
to be built in Missouri over the next ten years.
